Dear Harold,

Do you have anything on James Allen Smith - (the real CIA shooter of MLK)? Fensterwald was down in Tennessee asking James Earl Ray what he (Ray) knew about Smith. Bud-CIA are getting ready to go public with Smith, who was a close associate of George Bush!

I have info now that's nearly 100% certain (as close as humans can be certain) that Bud is CIA. I know you want like hearing this - but so is Jim & Bob Smith. Always were.

I talked to Jim L. not long ago and he told me you were sick - in a tone of voice that seemed to carry a warning to me! The CIA-Bush-David Rockefeller are right now carrying out a massive domestic Phoenix Program - assassinating everyone they possibly can as fast as they possibly can. (I've been given a lot of near-calls recently, including one "mugging" at a dark bus stop shelter not long ago. (That's an old CIA assassination cover - they tried to kill Dan Rather with a "mugging" in 1986 - check it out.)

Harrison Livingstone who wrote High Treason

(2) had the very same thing happen to him in Baltimore.

The Domestic Phoenix Program" has killed (or injured - as w. th "strokes") Abby Hoffman, Rep. Leland, Rep. Claude Pepper, Huey Newton, Larry O'Brien(?), Mae Braswell, John Henry Faulk(?), etc., etc., etc.

This is Bush - Rockefeller - CIA's "Last Stand" - kind of like "Custer's Last Stand." We're going into a Depression & they've already lost control of the country's politics. 10,000 people showed up at an anti-war rally in Mpls. last n.t.c. This was, of course, minimized on the network TV programs.

I feel as though they'll probably kill me soon - but I hope I make it thru. At least I & others can now have the satisfaction we've beaten those bastards! They won't realize for 4 or 5 years but they've lost forever - mainly because they're so incredibly stupid!

Best wishes,

Hal

P.S. Another thing: Sen. Estes Kefauver was assassinated (in the fall of '63) and Bud Fensterwald was one of those who did the killing. Bud was "working for" Kefauver at the time! I've known this for years, but I've really been afraid to tell anyone. Please don't pass this along to Jim L.! I might as well "go public" with this now since my life probably is about to end, unfortunately.
